

## An interesting story with a happy ending.

Dr. Moudhi - student

November 3rd, 2020

KUWAIT- 2 weeks ago a student in Hayat Universal Bilingual School, struggled to focus on her lesson because there were two lizards in the 4U classroom, her friend was in fear because she was scared of lizards.

It happened on October 1st when Reem spotted two lizards in a classroom and was scared. The lizards were looking at her in the eye and Reem was shaking that made Reem not able to focus because she was looking at what the lizards were up too.

One of Reem's friends, who was called Afnan, suggested opening the window and maybe the lizards would leave but that did not work. Another of Reem's friends, who was called Hafsah, suggested trapping the lizards in a cup and that worked, so Reem thanked everyone, especially Hafsah because she had a solution to Reem's problem. "What a wonderful solution." Mr.Ibrahim said.
